Daily Program: At 8.30am the riding group starts the day with a runway and reinless riding session which goes for aprox 1 hour and then you put the horses away and have morning tea. After that is the Ground Archery lesson running for 2 hours starting around 10am, this ground archery session is also available for those not bringing their horse. On completion of that, and a lunch break, we are back in the saddle combining the two morning sessions and shooting from your horse after we have done some desensitisation first. The day finishes around 4pm.
